James Bond II

94

This drop dead gorgeous horse combines the very best of both Dutch and German bloodlines. His outstanding movement combined with exceptional rideability and temperament bring you the ultimate model.

His movement is loose and elastic, with an ease to it that makes everything look effortless. His trot

is very easy in its adjustability – he already shows huge potential for the piaffe/passage work, as well as having a scopey extension. The canter is super adjustable so he has picked up the changes with ease and starts to turn the working pirouettes like he has been doing it forever. The walk has a good extension and collects easily ready for the piaffe. Sire Desperado has been phenomenally successful with Emmilie Scholtens. In 2019 they were on the silver medal winning Dutch team at the European Championships, and had fantastic results in numerous World Cup shows, including winning both the Grand Prix and the Freestyle (with over 85%!) in Mechelen.
